SHARING THE EASTER MESSAGE

More than 80 million Easter Eggs are given in the UK every year. **The Real Easter Egg** is the only Fairtrade egg to include a copy of the Easter story in the box. The eggs are no longer available from Traidcraft or in UK Supermarkets, but there are several online options (I've used Eden.co.uk <https://www.eden.co.uk/> which has free postage on orders over £10).

We continue to hold in prayer all in our church family who are suffering ill health, praying that they will know relief from pain and feel God's healing and peace.

“My dear Friends,

I would like to thank you all for your love and prayers shown to me.

I have never experienced such care and I cannot thank you enough.

My God bless you all.

With my Love ”

Feedback on EBC’s Prayer Month

“Thank You to everyone who contributed to the January daily readings: we really enjoyed them and got a lot out of it”.

From Larry

Annamae is taking part in a very interesting new play ‘Taller than the Trees’ by the **Small but Mighty Theatre** at the Old Fire Station, Oxford on Sunday 26th March.

SBM is our most important customer using the EBC hall, so some church support for the performance would be great!

What’s it about?

How many native plants and animals can you name in a minute?

Have you remembered to turn your lights off?

Did you walk here?

How much do you need the colour green?

Will you have children of your own?

Whose fault is it?

Who can do anything about it?

Is it too late?

The normally fearless young people of Small but Mighty live in an area facing major environmental changes; their village is doubling in size, roads are being built across the fields they walk in, and a super-sized solar farm will provide sustainable energy but will change the landscape for miles around. Stuck in a frustrating storm of societal expectations, greenwash, evidence of an evolving catastrophe; what can they do but to start asking questions of themselves, their parents, and the community around them?

In their new play created from recordings of interviews with everyone from beekeepers to housing developers, scientists to rebels, pensioners to other young people, they present a playful and touching show, that reveals our changing relationship with Nature, and the love and tenderness for the thing that we cannot live without.
